

# Tenaska Trailblazer: Jobs and Economic Growth, Now and for the Future

**“Tenaska has had a great impact on our county by hiring the majority of their staff from local people, and by supporting community organizations and fundraising projects throughout the county.”**

*– Sandra Hodges, Rusk County Judge, Henderson, Texas*

Employee-owned Tenaska has developed 15 power plants and currently operates three plants in Texas. The company has an exceptional track record for safety, and for creating jobs and supporting the communities where it operates. The Tenaska Trailblazer Energy Center in West Texas will generate:

- More than 1,500 jobs at peak construction.
- Approximately 1 billion in positive economic impact during five years of construction.
- More than 100 permanent, full-time jobs – supplying work to keep our next generation of West Texans employed here at home.

With Tenaska’s experience and innovation come jobs, now and for generations.
